

ELEVATE SUPER SERIES

MAY 3 - WEEK 2 RECAP

Super Series week 2: God moved in miraculous ways! We continued to talk about God's solution for anxiety and depression, and once again God ministered to students in a substantial way.

Students were running to the altar from the top of the risers when the salvation call was given. 50 students gave their lives to Jesus! This is not ordinary and common; what an honor that we get to be a part of this!

Beyond the crowd, Jesus sees people. Please take a moment to read a few of the stories of what God did in the lives of individual students.

STORIES

HUNTER & CAMILLE

Camille and Hunter, Brother and sister, lost their dad two years ago and have struggled in their faith since then. Hunter described it as “I was blinded by pain, I was so lost, I was so far from God.” He finally had a moment of surrender at BOTS 2023 and asked Jesus to come into his heart and heal the pain. He immediately started praying for his younger sister who was still struggling.

At Elevate Super Series week 2, Camille gave her life to Jesus and Hunter got to be a part of it!

“I had finally found the medicine for my pain, and when you find the answer....you want everyone to have it... and I especially wanted her to have it. She surrendered to Jesus tonight and I'm so happy right now.”

- Hunter
